Education Resources
Executive Director **Carole McKenzie**
Calderglen High School
Head Teacher **Elizabeth White**

Dear Parent/carer,

as part of our curriculum offer, and in partnership with college providers, pupils can opt to study a Foundation Apprenticeship. As this option would impact upon attendance in other subject areas, choosing this path would involve a discussion with Head of House and DHT. In preparation for this, we would encourage any potential applicants to attend the upcoming open night and/or visit our Careers site here for further information.

Foundation Apprenticeship Open Night

We have planned a Foundation Apprenticeship Open night in both colleges. Any student interested in an FA and their parents/carers are encouraged to attend, as are any teachers looking for more information.

At the Open Evenings there will be the opportunity to speak directly to faculty staff delivering the courses as well as current students and meet the FA team. There is also an opportunity to make an application on the night.

When – Thursday 7th March

Time – 5pm-7pm

Where – New College Lanarkshire, Motherwell Campus (for Engineering and Creative Digital Media 1 year)

South Lanarkshire College (for Accountancy, Business Skills, Financial Services, Software Development, Creative and Digital Media (2 year), Healthcare and Children and Young People)

Please note – if any families who wish to attend and for whom accessibility/transport to and from the college is a barrier, please let us know. Transport can be provided for the event for families in this category.

If you have any further questions, please do not hesitate to get in touch.

Many thanks,
Lynsey Clark
